Dear Andy, 10/12/97

Thanks for the check with your 10/8/97.

And for your good wishes. Things are about as good as they can be with all the problems we have and we are grateful they are not worse!

You asked about purchases by Lancer. Nothing this year amd 35 last year.

In earlier ye rs they did get a little more.

As long as they have that subject-matter ignoramus and general self-important fool Evica connected with them he'll do what he can to discourage sales of my books.

Several years ago that idiot actually solicited a paper on me as a CIA agent to be presented at the goof gathering in Providence.

That was a Third Decade insanity.

Those who own it know so little about the subject they'll be overwhelmed by his account of his greatness.

Which he may even believe.

Thanks snd best wishes,

Harold
